

COUGAR LS9

NEW! *COUGAR™ LS9 Hand-Held Thermal Transfer Printer and Accessories*

The affordable and powerful *COUGAR™ LS9* Hand-Held Thermal Transfer Printer increases labeling productivity. The rugged printer design meets the demanding requirements of electrical and network users. With its ability to print on a wide variety of continuous industrial label materials for wire/cable marking, component labeling, and safety/facility identification, the *COUGAR™ LS9* Printer is ideal for use in the field.

Labels are provided in fast loading *P1™* Label Cassettes that each contain an integrated memory device for automatic formatting, recall of last legend used and number of labels remaining in the cassette. A partial cut feature provides the flexibility to choose tear-apart strips of labels for quicker installation.

The *COUGAR™ LS9* Printer is part of a complete line of identification solutions from *PANDUIT*, which also includes the *PANTHER™ LS8E* Hand-Held Thermal Transfer Printer with revolutionary label cut-to-length functionality.

Key Features

Benefits

Print heat shrink tubing and continuous tape	Printed labels withstand harsh operating conditions including abrasion, chemicals, and temperature extremes
Unique cutter design allows full or partial label cutting	Flexibility to choose individually cut labels or a strip of tear-apart labels for quicker installation
Cassettes with automatic label recognition	Label cassettes contain an integrated memory device for automatic formatting, recall of last legend used, and number of labels remaining in the cassette
Fast loading label cassette	Contains both label material and ribbon to make changing labels easy
Large graphic display	Maximizes label design area
Compact, rugged design	Easy to use and fits comfortably in one hand
Crisp thermal transfer print	High quality print enhances label appearance
